

FLEXAIR

Hybrid polymer
compressed air
extension hose

The **FLEXAIR** extension hose allows for optimal and easy distribution of the compressed air.

The FLEXAIR extension hose allows an optimal air distribution. Combining highest qualities of both PVC and rubber.

The extension hose is equipped with:

- 1 **prevoS1** safety quick coupling
- 1 end cap
- 2 integrated protectors

ADVANTAGES

- Lightweight
- High flexibility
- Anti-scratch extension hose, thanks to the rubber protectors (ECP)
- Fast, safe and secure connection
- Easy to handle

TECHNICAL DATA

FLEXAIR HOSE

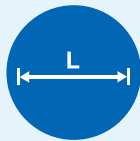

2 to 12 bar

-15°C to +60°C

Ø 8 mm → L : 10 m + 20 m
 Ø 10 mm → L : 10 m + 20 m
 Ø 13 mm → L : 20 m

prevoS1 coupling

APPLICATIONS

The **FLEXAIR** hose extension is optimized for compressed air supply to various tools, including blow guns, impact wrenches, screwdrivers and sander, which are used in garages, bodyshops and industrial workshops.

OPTIMIZED PACKAGING

- Visible hoses and fittings
- Designed and packaged for trade counter display/sale
- Simple technical
- Easy identification of the coupling profile, as per the coloured sticker
